

Student Data Privacy

Estes Park School District R-3

Teachers need data to understand when students are thriving and when they need more support in learning specific concepts.

Parents and guardians need access to their child's educational data to help them stay on track.

Students need feedback on their progress so they can make informed decisions about program choices and prepare for success.

School officials and community members need to understand school performance and know if educational resources are allocated effectively.

In addition to data collected by CDE, we may collect and maintain the following on our data systems to ensure student safety and accurate reporting which helps run our school operations efficiently:

- State ID
- Birthdate
- Age
- Grade
- Gender
- Race
- Addresses
- Phone numbers
- Family info/affiliations
- Language preference
- Enrollment history
- Health information
- Fees
- Bus transportation details
- Assessment/survey results
- Schedule/attendance
- Grades/transcripts
- Behavior/discipline
- Locker assignments
- Checked out media
- Participation in extra-curricular activities
- Information of public record

FERPA/COPPA

We follow federal and state education privacy laws and adhere to privacy and security policies. For example, the Family Education Rights & Privacy Act (FERPA) gives parents rights related to their children's education records and personally identifiable information (PII). Additional information is available from the U.S. Dept. of Education at <http://familypolicy.ed.gov/>. Under FERPA, our vendors cannot use the education records we provide in any way that is not authorized by the school district. They cannot sell this data or allow others to access it except as we permit in accordance with federal and state privacy laws.

When we use an online service provider to process or store data, they also must adhere to certain federal and state privacy laws. We also expect them to use current security protocols and technology.

The federal Children's Online Privacy Protection Act (COPPA) prevents child-directed websites and apps from collecting certain personal information from anyone under 13 years of age without parental permission. Our district may consent on behalf of parents in the education context when student information is collected for the school's exclusive use and benefit and for no other commercial purpose.
